

## Online Bullying / Bullying & Cell Phone Sexting / Texting

IDAHO CRIME PREVENTION & IDAHO POST ACADEMY and CS CONSULTING CORP TEAM UP TO  
CONTINUE EDUCATION TO KEEP KIDS SAFE IN SCHOOL.

Online Bullying and harassment is one of the most prevalent problems facing students, parents' educators, and school personnel today. We often overlook the impact that online activities outside of school have on the school environment. Many students feel that adults cannot recognize nor do anything about bullying and harassment online and simply let it go unchecked. This offering will help adults bridge that gap between students and adults in addressing online bullying/bullying & cell phone sexting/texting and making participants more confident in their approach to addressing these issues within their own spheres of influence.
